III. BACKGROUND AND RATIONALE OF THIS SCHEME

- Bhuvée was incorporated on 7th November 2007, having its registered office at Kolkata, West Bengal. It is engaged in the business of manufacturing and trading of steel products.

Due to financial distress, insufficiency of funds and continuing default in repayment of borrowing, Hon'ble National Company Law Tribunal ('NCLT'), Kolkata Bench, passed an order for initiation of Corporate Insolvency Resolution Process ('CIRP') against Bhuvée on 12th March 2019 upon petition preferred by corporate creditors.

- In compliance with the Insolvency and Bankruptcy Code, 2016 ('IBC') and in accordance with the Insolvency and Bankruptcy Board of India (Liquidation Process) Regulation, 2016, the Liquidator invited offers for the sale of Bhuvée on going concern basis. Thereafter, vide the order dated 16th June 2022 passed by Hon'ble NCLT (and subsequently upheld by Hon'ble National Company Law Appellate Tribunal vide order dated 25th January 2023) confirmed the sale by private treaty in favour of the highest bidder, i.e., Laser Solar LLP, being the higher bidder in the auction process.
- Bhuvée is engaged in manufacturing and sale of i) Kitchen Appliances which includes tableware, cookware, cutlery, bakeware and manufacturing and ii) manufacturing and sale of Sink and related accessories.
- Since the inception of CIRP, the business operations of Bhuvée have been impacted significantly with an almost negligible amount of manufacturing and sales operations over the last 5 years. Additionally, most of the plant & machinery items have remained idle on account of loss of business opportunities and lack of trust and creditworthiness among the suppliers and bankers.
- Considering the above bottlenecks, steps have been taken by new management to revive the business operations to reach optimum utilization of assets. However, considering the experience from the acquisition of Bhuvée till date, Management of Bhuvée feels that it would take a significant amount of time to revive the business operations of the company even after additional infusion of funds. Further, till the business operations are revived, the existing plant & machinery would have reached their useful life leading to further erosion of net worth and losses for stakeholders.
- Accordingly, in line with the object of IBC i.e. to revive the entity and / or its business operations and to ensure the optimum utilization of existing factory building, plant & machinery and various other assets of Bhuvée, the management has agreed to undertake the demerger of existing business of Bhuvée in such a manner that each group entity / promoters, would be able to contribute towards expansion of business by optimum utilization of existing assets through internal corporate reorganization in the form of demerger of identified business undertakings of Bhuvée, as follows
 - Laser Solar LLP is owned by the promoters of Suncity and Laser Power.
 - Suncity is an established business entity having stainless steel manufacturing facilities in Rajasthan and Gujarat. One of the existing product lines of Suncity is manufacturing stainless steel circle and stainless-steel sheet packets. Both these products are primarily used for manufacturing kitchen utensils and sinks.

Accordingly, demerger of Demerged Undertaking 1 being more synergistic to existing manufacturing operations of Suncity, would result into forward extension / integration of existing business of Suncity and also give significant boost to the kitchen utensils and sink manufacturing business of Bhuvée.

- On the other hand, Laser Power is, *inter alia*, engaged in the business of manufacturing cables, conductors, rods, wires and other power transmission and distribution equipment for domestic and international markets wherein steel, iron and other metals are key raw material / ingredients. Further, Laser Power is having business presence in Kolkata for decades, with its own sales & marketing team, skilled employees, access to capital and banking facilities etc., is contemplating to diversify its business operations through expansion and making investments into various sectors.
- Accordingly, it is contemplated to perform demerger of Demerged Undertaking 2 of Bhuvée into Laser power. This would help better utilization of machinery, utilization of common pool of resources, access to capital and credit line from suppliers for expansion of business in Kolkata.
- Bhuvée shall continue to undertake certain manufacturing and trading activities.
- Management considers that demerger of business units into these companies would ensure better utilization of existing assets and resources.
- The combination of demerged undertakings and the transferee companies is a strategic fit for serving the existing market and for catering to additional volume linked to new customers.
- It would result into enhanced competitive strength, achieve cost reduction, efficiencies and productivity gains by pooling the technologies and resources of Suncity, Laser Power and Bhuvée, thereby significantly contributing to future growth and maximization of shareholder value, in line with the intent of IBC, by revival of the transferor company and / or its business.
- The scheme will also enable Bhuvée and the resulting companies to focus and enhance its respective businesses by streamlining operations and its management structure, ensuring better and more efficient management control.

The Scheme is in the best interests of the shareholders, employees, and the creditors of each of the parties.

6. APPROACH & METHODOLOGY

6.1. The Scheme contemplates the demerger of Demerged Undertaking 1 of Bhuvée into Suncity and of Demerged undertaking 2 into Laser Power. Arriving at the Share Entitlement Ratio for the Proposed Transaction would require determining the value of Demerged Undertaking 1 and 2 of Bhuvée. The Scheme contemplates the Proposed Transaction pursuant to the provisions of Sections 230 to 232 and other applicable provisions of the Companies Act, 2013.

6.2. There are several commonly used and accepted methods for determining the Share Entitlement ratio for the proposed demerger of Demerged Undertaking 1 and Demerged Undertaking 2 into Suncity and Laser Power, which have been considered in the present case, to the extent relevant and applicable, including:

- 6.2.1. Market Approach:
- 6.2.2. Market Price method
- 6.2.3. Comparable Companies Multiples
- 6.2.4. Comparable Transaction Multiple Method
- 6.2.5. Income Approach: Discounted Cash Flows Method
- 6.2.6. Cost Approach: Net Asset Value Method

6.3. As discussed below for the Proposed Transaction we have considered these methods, to the extent relevant and applicable.

6.4. This valuation could fluctuate with lapse of time, changes in prevailing market conditions and prospects, industry performance and general business and economic conditions financial and otherwise, of the Companies, and other factors which influence the valuation of companies and their assets.

6.5. We have relied on the judgment of the Management as regards contingent and other liabilities.

6.6. The valuation methodologies, as may be applicable, which have been used to arrive at the value of the Demerged Undertaking 1 and 2 are discussed hereunder:

6.6.1. Market Price (MP) Method

The market price of an equity shares as quoted on a stock Exchange is normally considered as the value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares.

Equity shares of Bhuvée are not listed on any stock exchange, hence this method is not applicable.

6.6.2. Comparable Companies Market Multiple ("CCM") Method

Under this method, the value of the equity shares of a company/ business undertaking is arrived at by using multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation.

Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances. Since in the absence of a good benchmark to determine the value of the subject company, we have not used this method of valuation.

6.6.3. Comparable Companies Transaction Multiple ("CTM") Method

Under CTM method, value of the equity shares of a company/ business undertaking is arrived at by using the prices implied by reported transactions/ deals of comparable companies. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Like the CCM Method, it is difficult to find similar transactions to benchmark. We have therefore not used this method of valuation.

6.6.4. Discounted Cash Flows (DCF) Method

Under the DCF method the projected free cash flows to the firm are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm.

Using the DCF analysis involves determining the following:

6.6.4.1. Estimating future free cash flows:

Free cash flows are the cash flows expected to be generated by the company that are available to all providers of the company's capital — both debt and equity.

6.6.4.2. Appropriate discount rate to be applied to cash flows i.e., the cost of capital:

This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to all the capital providers (namely shareholders and creditors), weighed by their relative contribution to the total capital of the company. The opportunity cost to the capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk.

As we have been given understanding that Bhuvée was acquired under the Insolvency and Bankruptcy Code, 2016 ('IBC') and in accordance with the Insolvency and Bankruptcy Board of India (Liquidation Process) Regulation,

2016. The main purpose of the said acquisition was to revive Bhuvée and its business. Since the inception of CIRP, the business operations of Bhuvée have been impacted significantly with an almost negligible amount of manufacturing and sales operations over the last 5 years. Additionally, most of the plant & machinery items have remained idle on account of loss of business opportunities and lack of trust and creditworthiness among the suppliers and bankers.

Considering the context provided, it is our understanding that the management is unable to ascertain the long-term cash flows, and the management has potential continuity issues. Hence, we have not considered DCF method for valuation.

6.6.5. Net Assets Value (NAV) Method

The asset-based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. The Net Assets Method is particularly suitable for businesses where the value is primarily derived from the underlying tangible and intangible assets.

Hence, the Net Assets Method is used for valuation of the Demerged Undertakings 1 and 2.

7. BASIS OF SHARE ENTITLEMENT RATIO

- 7.1. The basis of the Proposed Transaction would have to be determined after taking into consideration all the factors and methodologies mentioned hereinabove. The Share Entitlement Ratio is based on the various methodologies explained herein earlier and various qualitative factors relevant to the Demerged Undertakings 1 and 2 and the business dynamics and growth potentials of the business of the Demerged Undertakings 1 and 2, having regard to information base, key underlying assumptions, and limitations.
- 7.2. As considered appropriate, we have applied the methodologies discussed above and arrived at an assessment of the value of the Demerged Undertakings 1 and 2 as mentioned in **Annexure A**.
- 7.3. In consideration of the proposed demerger of the Demerged Undertaking 1 of the Transferor Company into the Transferee Company 1, the Transferee Company 1 shall, without any further act or deed, issue and allot 10 (Ten) Suncity RPS INR 1,000 (Rupees One Thousand only) each credited as fully paid-up of the Transferee Company 1 for every 1,167 (One Thousand One Hundred and Sixty Seven) equity shares of INR 10 (Rupees Ten only) each fully paid-up held by the equity shareholders in the Transferor Company, as on the Record Date.
- 7.4. In consideration of the demerger of the Demerged Undertaking 2 of the Transferor Company into the Transferee Company 2, the Transferee Company 2 shall, without any further act or deed, issue and allot 701 (Seven Hundred and One) Laser Power RPS of INR 10 (Rupees Ten

only) each credited as fully paid-up of the Transferee Company 2 for every 800 (Eight Hundred) equity shares of INR 10 (Rupees Ten only) each fully paid-up held by the equity shareholders in the Transferor Company, as on the Record Date.

- 7.5. Considering the coupon rate, terms of redemption and the current market value of similar instruments, we understand the value of the Preference Shares can be considered similar to its Face value.

8. CONCLUSION

Based on the forgoing, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, pursuant to demerger of Demerged Undertaking 1 of Bhuvée into Suncity and Demerged Undertaking 2 of Bhuvée into Laser Power, we recommend the following Share Entitlement Ratio for consideration by Suncity and Laser Power to the shareholders of Bhuvée:

- 10 (Ten) redeemable, non-participating, non-cumulative preference shares of INR 1,000 (Rupees One Thousand only) each fully paid-up of Suncity to be issued for every 1167 (One Thousand One Hundred and Sixty Seven) equity share of INR 10 (Rupees Ten only) each fully paid up of Bhuvée as on the record date as defined in the Scheme, pursuant to the demerger of Demerged Undertaking 1 of Bhuvée into Suncity; and
- 701 (Seven Hundred and One) redeemable, non-participating, non-cumulative preference shares of INR 10 (Rupees Ten only) each fully paid-up of Laser Power to be issued for every 800 (Eight Hundred) equity share of INR 10 (Rupees Ten only) each fully paid up of Bhuvée as on the record date as defined in the Scheme, pursuant to the demerger of Demerged Undertaking 2 of Bhuvée into Laser Power.
